Introduction

A Parks and Recreation Plan is a guide that helps communities express its recreation goals and visions and plans. Because of the constant change in our social and economic structure and activities, the Parks and Recreation Plan must be maintained through periodic review and revision so that it reflects contemporary trends while maintaining long-range goals.

As much as the Township has changed in the last 30 years, it is likely that it will experience as much or more change in the next 30 years. Change in a community presents a challenge to its citizens and its local government to anticipate and plan needs.

Because of the constant change in our social and economic structure and activities, the Parks and Recreation Plan must be maintained through periodic review and revision (every five years) so that it reflects contemporary trends while maintaining long-range goals. The plan will be effective to the degree that it continues to:

- Reflect needs and desires of the people
- Realistically interpret and reflect the conditions, trends and the changes in society
- Inspire concurrence and cooperation among the various public agencies and the citizens of the community

The preparation of this document is prompted by the Township's rapid population growth, the desire to protect and provide access to area natural resources, an interest in maintaining eligibility for grant dollars, and the desire to plan for open space protection in the Township.

This plan is a revision of the 2013 Parks and Recreation Plan. The original plan was prepared in 1979, with revisions made in 1980, 1986, 1993, 1998, 2003 and 2008.

Community Description

Allendale Charter Township is in the center of Ottawa County, between Grand Rapids on the east, Holland and Grand Haven on the west, Jenison and Hudsonville on the south, and Coopersville on the north. The Township is located on Lake Michigan Drive, a major transportation route between Grand Rapids and Lake Michigan.

Grand Valley State University (GVSU) is located within the Township. GVSU has grown greatly since its beginning in 1963. The community has experienced growth related to GVSU's development. In addition, the expansion of the Grand Rapids metropolitan area has made the Township an attractive suburban community for many who work in the Grand Rapids area. The growth of our community and in the surrounding communities has created a need for more recreational facilities to serve the people of the Township and surrounding areas.

Forty years ago, the Township was predominantly a rural community. As the Township continues to develop, the character, economy and population have become much more diverse, ranging from urban to rural. A significant manufacturing component has been added to the Township's economic base. The population has multiplied, and residents are served by a more complete range of commercial goods and services. In addition, the main campus of Grand Valley State University, one of Michigan's major public universities, has evolved from a small cluster of buildings to a campus of approximately 700 acres, with a total enrollment in the fall of 2018 of 25,460 students, for both the Allendale and Grand Rapids campuses.

The Township currently is a service center for the surrounding agricultural and suburban areas as well as GVSU. Several residents are students, faculty, and staff at GVSU, and many residents commute to work in surrounding communities. The 2010 Township census shows a population increase of 63% from 2000 to 2010. The most recent population estimate (26,686 in 2018) is an increase of 28% over the 2010 population (20,708).

Population Changes by Decade

Year	Population	% Change
1970	3,554	--
1980	6,080	71%
1990	8,022	32%
2000	13,042	62%
2010	20,708	63%
2018	<i>Est. 26,686</i>	29%

The soils and topographic conditions in the Township are generally suitable for most types of urban development. This is another factor in the desirability of the area as a suburban residential location. The Grand River also is an important natural resource impacting the residential growth in the area. It forms the north and east boundaries of the Township and, as efforts to improve the environmental quality of the river are more successful, it will become a major attraction for recreational and residential development.

Allendale Charter Township Parks & Recreation Plan

While much of the residential development is related to GVSU’s growing need for student housing, faculty, and staff housing, and housing for service/retail workers, another portion of the growth is related to the expansion of the Grand Rapids metropolitan area.

Administrative Structure

Staff & Administration

The Allendale Charter Township Board is the legal agency for all Township owned recreational facilities. Together with the Parks and Recreation Advisory Board, they see that all projects are completed, as funds become available. The Township owns the Allendale Community Park, is responsible for the administration, and provides the general upkeep and maintenance funds, as well as the supervision of programs. At the present time there are no anticipated changes in staffing or administration of the recreational activities.

Allendale Charter Township Planning Commission - The Planning Commission consists of seven voting members and one staff advisor. Members are appointed by the Supervisor and approved by the Township Board. The basic function of the Planning Commission is to make and adopt a plan for the guidance of the development of the Township. The plan includes maps, plats, charts and descriptive and explanatory materials. In addition to private land use, it considers general location of major streets, water and sewer systems, public utilities and structures, rehabilitation of blighted areas, location of public buildings, flood prevention, public recreation and other similar matters pertinent to governmental services. The Township Board has final authority to approve each plan.

Allendale Charter Township Parks & Recreation Plan

Parks Budget

Funding for parks and recreation capital outlay, operations, and maintenance is primarily funded through general budget allocation each year as shown in the budget below. On special occasions such as for major capital outlay expenditures, the Downtown Development Authority (DDA) will allocate resources to help accomplish a specific project that would otherwise not be possible with the approximately 100-150k normally allocated for parks and recreation total budget. In addition, the parks advisory board also seeks private and grant funding. With a strong desire to expand the park system, it is understood that funding from all sources will need to increase significantly over the next 5 years to accomplish some of the major goals outlined in this park plan as well as planning for the operations and maintenance expenditures that go along with parks and trails expansion.

Cooperation & Volunteers

The local schools, churches, organizations, businesses, GVSU and the Township personnel all work closely together in the sharing of buildings, facilities and equipment. This also applies to recreational facilities. Often occasions arise when one group must rely upon another group for assistance, and generally, there is a real cooperative attitude within the community.

Recreation Inventory

Township Recreation Resources

Allendale Community Park (shown below) is comprised of 40 acres and is a busy place during the warm weather months. One reason is the park's outstanding softball and Little League facilities, which attract teams and players from a wide geographic area. In 2019 major park improvements began including new tennis & pickleball courts, basketball court, picnic shelter, sidewalks, and parking improvements. See Appendix A for the new master plan for the park and proposed improvements to the township offices, fire station, entry drive and parking.

Park Amenities

- 3 Adult ball diamonds with lights
- 3 Little League ball diamonds without lights
- 2 Splash Pads
- Concession areas
- Three picnic shelters
- Band Pavilion

Accessibility rating is 4 out of 5.

Non-motorized Paths & Sidewalks

In 1995, the Township Board appointed a Safety Path Committee, whose responsibility it was to study the needs of non-motorized pathways in the Township. The advisory board prepared a Non-Motorized Pathways Master Plan, which includes connecting pathways between Allendale Public High School, the Allendale Public Elementary School, the Allendale Christian School, the Allendale Community Park, and the Allendale Charter Township Library. The Township has received State Enhancement Funds to install some of these paths, with matching funds coming from the Township’s General Fund. In 2002 Ottawa County completed a Non-Motorized Pathways Study. The Township’s Non-Motorized Pathways plan was incorporated into the county plan. The township has been steadily adding to its community sidewalks each year as more development continues. Existing paths and sidewalk quantities are shown below.

Path Width	Quantity (ft.)
5'	93,650'
6'	1,330'
7'	630'
10'	11,058'

Recreation Resources within the Township

State/National Parks – The federal government does not actively manage any recreational lands within Ottawa County. It does, however, own approximate 40 acres of land called the Bass River Recreation Area, divided among 19 islands located along the Grand River in the eastern portion of the County. The State owns acreage in Robinson Township and Allendale Charter Township for future development as a state park or recreation area. With Grand River frontage, this site can be expected to provide significant recreation opportunities in the future, although a master plan identifying specific park plans has not yet been developed.

County Parks – Eastmanville Bayou, located in Allendale Township, is a 157-acre open space land with 1.75 miles of Grand River frontage and 1.5 miles on Eastmanville Bayou. Acquired in late 2008, the property immediately became popular with fisherman as an access point to Eastmanville Bayou. Two houses on the property were removed in 2009 and access was permitted. Nearby residents and the general public were encouraged to participate in the master planning process that was completed in January 2010. Most improvements are planned for the property just southwest of the 68th Avenue bridge over the Grand River which will serve as the primary access point for the site. Improvements include a parking area, a small boat launch ramp on the bayou, a walkway under the bridge to access eastern portion of the site, picnic sites, interpretive displays, a

canoe/kayak dock on the Grand River and rustic toilets. The plan also envisions the site as a trailhead for the future Grand River Greenway non-motorized trail.

Regional Facilities

Regional Parks – The Township is fortunate to be located within a short distance of many regional parks located outside of the Township, which are owned and managed by local governmental units.

Planning Process

Comparison to Recreation Standards

Allendale Charter Township land was classified using the Recreation Park and Open Space Standards and Guidelines published by the National Recreation and Park Association (NRPA).

	Mini-Park	Neighborhood Park	Community Park	Total
Number of Parks	0	0	1	1
Total Acres	0	0	40	40
1000's of people	27	27	27	27
Acres / 1000 people	0.00	0.00	1.48	1.48
DNR Standards (acres/1000 people)	0.25 - 0.50	1.00 - 2.00	5.00 - 8.00	6.25 - 10.00

Allendale Charter Township has 1.48 acres of park land per 1,000 people, well under the NRPA guidelines of 6.25 to 10.5 acres of land per 1,000 people.

Public Survey Summary

There was a total of 86 responses to the survey, the average age of people responding is 42yrs old. A majority of people responding reside in the 49401 zip code (98%) and have kids under the age of 18 (72%). 93% of the community are “Very Supportive” and “Supportive” of creating a connected non-motorized path system. 86% of the community are “Very Supportive” and “Supportive” of purchasing land to expand recreation. 77% of people would prefer to be notified of activities/services through social media, 25 people gave personal emails to receive updates. 47% of responders are “Very Satisfied” with the parks system, 37.5% consider themselves “Neutral”. There is a large need for more opportunities for age groups other than children, a large majority voted chose “Neutral” or “Dissatisfied” for Seniors, Adults, Teens, and Persons w/ Disabilities. In the next 5 years people consider a township owned aquatic/fitness center to be “Extremely Important” (39%). People want to access rivers/lakes/streams the most, then forests second.

Goals and Objectives

The goals and objectives of this plan stemmed from present conditions, assessment of need, and the feedback from the community.

Goal 1: Develop an Interconnected Non-Motorized Path System

Trails continue to be the trend for communities across West Michigan and the residents of Allendale Charter Township agree. According to the survey 75.5% of residents were very supportive.

Objectives

1. Connect neighborhoods, schools, businesses, to each other and to park properties.
2. Work with the Ottawa County to connect non-motorized paths and sidewalks to the regional non-motorized Idema Explorer's Trail through Allendale Charter Township.
3. Continue to complete and expand the township's sidewalk system making key connections to primary non-motorized routes.

Goal 2: Develop New Parks

With only (1) park and a growing community, the people of Allendale Charter Township are looking for more places for recreation near where they live and work.

Objectives

1. Develop new parks along the proposed non-motorized path system described in Goal 1.
2. Locate parks on both sides of M-45
3. Develop parks of different sizes and with new uses.
4. Utilize grant opportunities and public and private sources to acquire land.

Goal 3: Improve and expand facilities at Community Park

Community Park is a well-used, and well-loved park in Allendale Charter Township. Continuing to prioritize park improvements, maintenance, and replacement of existing park features is a priority over the next 5 years.

Objectives

1. Develop a continuous walking loop that can be used by families, joggers, walkers, and visitors.
2. Continue to provide greater levels of accessibility.
3. Continue to develop places for picnicking and relaxation.
4. Develop a long-range capital improvement plan to fund the repair and replacement of park assets.

Action Program

Goal 1: Develop an Interconnected Non-Motorized Path System

Action Plans:

- Develop a Non-Motorized Capital Improvement Plan to prioritize trail development, operations, and maintenance. Identify projected costs and funding sources.
- Continue to build out the sidewalk system.
- Coordinate with local governments to incorporate path improvements with developments, county road construction, and utility projects.

Goal 2: Develop New Parks

Action Plans:

- Purchase one (1) 40 ac or larger mostly wooded or floodplain property on the north side of M-45 near or adjacent the Non-Motorized Path Master Plan route for the development of a nature-based park facility.
- Purchase two (2) 5 ac or less properties near existing neighborhoods for the development of smaller neighborhood parks.
- Partner with Ottawa County to purchase trailhead property along 68th Ave for the Idema Explorer's Trail.
- Continue to pursue opportunities for additional park acquisition.

Goal 3: Improve and expand facilities at Community Park

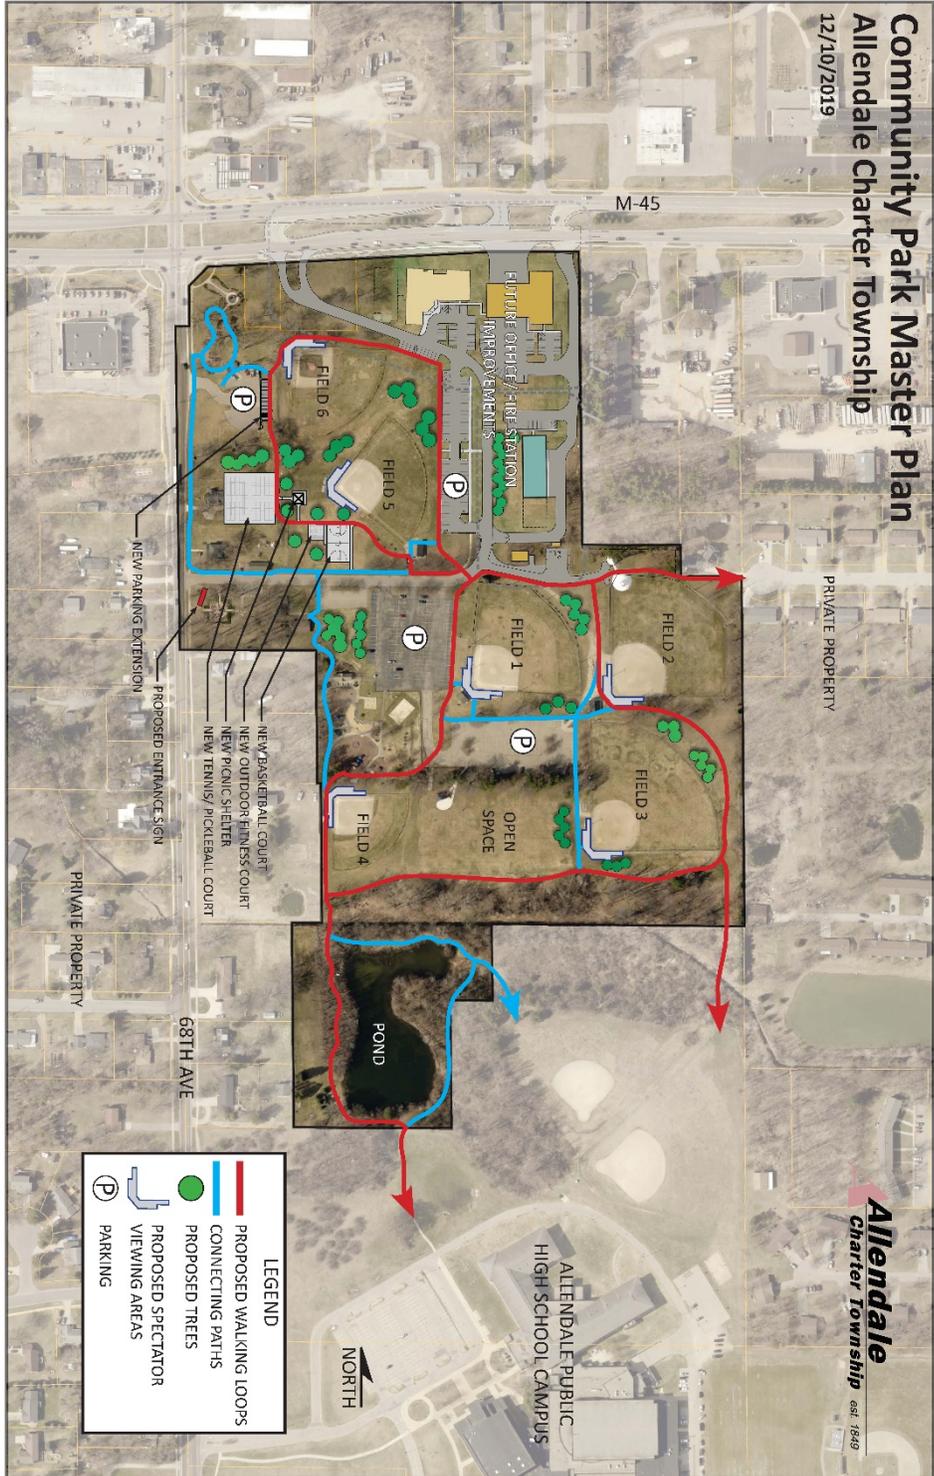

Action Plans:

- Construct and universally accessible paved walking loop as shown in the Community Park Master Plan.
- Construct concrete bleacher and dugout pads at existing ballfields per ADA standards.
- Construct universally accessible connector paths from barrier free parking spaces to ballfield spectator areas.
- Install new trees, picnic tables, and trash/recycling in open spaces to facilitate picnicking.
- Install new well for sports field irrigation

3	I love to have a marked/safe place for me to take my family on hikes.	11/26/2019 9:26 PM
4	This would be such a positive enhancement of the community! I would love to be able to safely access the Fred Meijer Trail off of M-45.	11/26/2019 8:55 PM
5	Hard to know if I support this if there is no proposal. Is it close to schools? Does it travel through LDR or HDR areas? Connect GVSU to rest of community? All would need answers before I could determine level of support.	11/8/2019 3:23 PM

1	Work with the county... they have a park tax.	11/27/2019 2:05 AM
2	Allendale needs more options indoor and outdoor for families with young kids who don't hVe time to drive to another town between naps just for an activity	11/27/2019 12:39 AM
3	I cannot stress enough how much a recreational and aquatic center facility as well as a children's area in the library.	11/26/2019 9:20 PM
4	Thank you for focusing on this important topic!	11/26/2019 8:55 PM
5	Clean up the stream south of the park. The trail is nice but there is so much trash, tires, etc dumped in the stream.	11/19/2019 2:18 AM
6	Overhead crosswalk over M-45	11/9/2019 3:38 AM
7	With the projected growth of the township, it is definitely going to be important to have one or two more actual parks. The central location and large size of the community park is nice, but too many people have to drive to get there.	11/7/2019 9:16 PM
8	Unless I couldn't find it, please place renovation plan for community park on twp website.	11/7/2019 8:40 PM
9	It would be nice to have something more attractive to teens	11/5/2019 12:43 AM
10	I would love to have the ability to access trails that can lead to great facilities and dog parks.	11/4/2019 12:09 AM
11	Allendale needs a new park...something without baseball fields. Walking/hiking/biking trails, dog park, etc.Allendale also needs a community swimming pool/rec center	11/2/2019 2:36 AM
12	Consider an pedestrian bridge over LMD as expansions continue in our community.	11/1/2019 7:01 PM
13	Would be great to have access to more sidewalks and paved roads on Pierce. This would also help with access to any of the areas of future parks/trails and make it a safe area for riding bikes, walking, rollerblading, etc. Would be nice to have a path for bikes and rollerblading that is safer than LMD.	11/1/2019 6:05 PM
14	Sidewalks down 64th from high school to fillmore	11/1/2019 5:56 PM
15	Music in the park is an important activity to our family. It would be nice to see it expanded like Georgetown with more food truck options, businesses doing activities, etc.	11/1/2019 5:34 PM
16	There are a lot of great partnership opportunities. An aquatic and fitness center would be great, but is there an opportunity to work with GVSU on it. The same can we said for trail and park development and partnering with Ottawa County Parks and Recreation.	11/1/2019 12:04 PM
17	Add a large cement boat launch to the grand river	11/1/2019 10:00 AM
18	Having a Community building is important to keep the residents connected. I would support a new building separate from the township offices for recreational activities as well as community classes and such. Something along the same lines as of the Zeeland community ed building.	10/31/2019 10:45 PM
19	Allendale needs more technology and places where modern families can grow	10/31/2019 9:01 PM

Appendix D: Land Acquisition Guidelines

Guidelines for Purchasing Additional Parks and Recreation Property in the Township

Property must:

- Be open and accessible to the whole community, not just serve the adjacent residents
- Be accessible from public roads by vehicle, with opportunity for the appropriate number of parking spaces for park users from the community.

Other considerations

- Does the property have unique natural features?
- Does the property have historical value?
- Does the property have the potential to be developed into a community park?
- Does the property have the potential for active and/or passive recreational facilities?
- Is there accessibility around the wetland areas on the property?
- Is there adequate area for vehicular accessibility and parking on the property?
- Could the property be developed with barrier free access?
- Does the property have walk-able access to the public?
- Could this property interconnect with and/or is it adjacent to other parks or recreational pathways?
- If there are already facilities provided on the property, are the facilities in good condition or in need of repair?

Guidelines for Accepting Donated Property for Parks and Recreation Use

Property must:

- Be open and accessible to the whole community, not just serve the adjacent residents
- Be accessible from public roads by vehicle, with opportunity for the appropriate number of parking spaces for park users from the community.
- Have the amenities already constructed by the developer...negotiable on a case by case basis.

Other considerations

- Does the property have unique natural features?
- Does the property have historical value?
- Does the property have the potential to be developed into a community park?

- Does the property have the potential for active and/or passive recreational facilities?
- Is there accessibility around the wetland areas on the property?
- Is there adequate area for vehicular accessibility and parking on the property?
- Could the property be developed with barrier free access?
- Does the property have walk-able access to the public?
- Could this property interconnect with and/or is it adjacent to other parks or recreational pathways?
- What is the condition of the facilities already provided on the property?

Guidelines for Accepting Donated Easements or Purchasing Easements for Connecting Trails for Parks and Recreation Use

Pathways must:

- Be open and accessible to the whole community, not just serve the adjacent residents
- Be accessible from public roads

Other considerations

- Could the pathway be developed with barrier free access?
- Could this pathway interconnect to other parks or recreational pathways?
- Would the pathway comply with the Non-Motorized Pathways Plan?
